

'Grass Roots' Turf Tips

The U.S. National Arboretum's 'Grass Roots' Initiative includes a 1.3-acre interactive exhibit that is made up of 12 unique displays demonstrating various benefits and uses of turfgrasses. The primary message of the exhibit is that the best lawns are developed and managed with their purposes in mind, whether those purposes are golf and other sports, linking landscape elements, conserving soil, assuring water retention, or simply beautiful landscapes. 'Grass Roots' also maintains its own turfgrass information [website](#).
